**“Celebrating 40 years of Earth Day:  
Goodbye Gloom and Doom”**

on

**Tuesday, April 20, 2010, 6:30pm**

at

**The Retreat, Bahamas National Trust  
Village Road, Nassau**

Here is what you will learn:

- How Environmental Quality in The United States is improving
- How we can create environmental improvements using the powerful tools of the market, instead of government regulation
- How to avoid the guilt and sense of future dread that usually accompany the annual “Earth Day”
- The important role that strong Property Right laws have in maintaining a clean and sustainable environment

For the past 40 years Earth Day has served as a global guilt-fest that views humans and the future with a sense of dread.

Laura Huggins will brighten peoples understanding of the possibilities available when we create environmental improvements using the powerful tools of the market.

**Admission: FREE**
